RESPONSE

Commissioner for Patents  
Washington, D.C. 20231

Sir:

This is in response to an office action mailed on January 8, 2003, which set a shortened statutory period for response that expired on February 8, 2003. A request for a two-month extension of time is submitted herewith. In view of the following election of species with traverse, examination on the merits is respectfully requested.

REMARKS

The Examiner has required an election of one species from species he identifies as "[c]olumns having at least one photopolymer frit" and "columns having separation medium being formed of a photopolymer." The latter species is hereby elected with traverse on the grounds that is not believed that a search and examination of all species

~~01 FC:1252~~

~~410-00-00~~

M-11147-1C US

would pose a serious burden. Claims 1-13 are readable on the species elected with traverse.

In view of the foregoing, reconsideration of the election requirement is respectfully requested.

Respectfully submitted,

A handwritten signature in cursive script, appearing to read "K. Alison de Runtz".
